American
POTATO JOURNAL

Official Organ of the Potato Association of America

VOLUME 37

JANUARY - DECEMBER 1960

EDITORS

J. C. CAMPBELL, *Editor-in-Chief* E. S. CLARK, *Associate Editor*

RUTGERS UNIVERSITY, NEW BRUNSWICK, NEW JERSEY

OFFICERS

ORRIN C. TURNQUIST, *President*

ROBERT V. AKELEY, *President-Elect*

L. C. YOUNG, *Vice President*

PAUL J. EASTMAN, *Past President*

RICHARD L. SAWYER, *Secretary*

JOHN C. CAMPBELL, *Treasurer*

DIRECTORS

WALTER C. SPARKS C. E. CUNNINGHAM

ROBERT H. TREADWAY

STARKS FARMS INC. ..... Route 3, Rhinelander, Wisconsin

BACON BROTHERS ..... 1425 So. Racine Ave., Chicago 8, Illinois

L. L. OLDS SEED CO. ..... Madison, Wisconsin

FRANK L. CLARK, Founder — Clark Seed Farms ..... Richford, New York

RED DOT FOODS, INC. ..... Madison, Wisconsin

ROHM & HAAS COMPANY ..... Philadelphia, Pennsylvania

WISE POTATO CHIP CO. ..... Berwick, Pennsylvania

AMERICAN AGRICULTURAL CHEMICAL CO. ..... Carteret, New Jersey

LOCKWOOD GRADER CORP. ..... Gering, Nebraska

E. I. DU PONT DE NEMOURS AND CO. (INC.)
Industrial and Biochemicals Dept. ..... Wilmington 98, Delaware

INDEX TO VOLUME 37

AUTHOR AND TITLE INDEX

Aase, J. K., (409).
Adams, E. P., (409).
Ahmadi, A. A., H. Mobarak and John Osguthorpe. The effect of time of planting on occurrence of internal brown spot in the potato variety Arran Banner in Lebanon. 23-27.
Akeley, Robert V., (306).
Asselbergs, E. A., (268).
Ayers, G. W., (203).
Baghott, K. G., (34).
Bagnall, R. H., C. Wetter and R. H. Larson. Differential host and serological relationships of potato virus M, potato virus S, and carnation latent virus. (Abstract from Phytopathology 49: 435-442, 1959). 111.
Bagnall, R. H. and D. A. Young. Inheritance of immunity to virus S in potatoes (Abs.). 311.
Benson, Ezra Taft. Chemicals and Foods. (Reprint). 38-41.
Bezemer, Simon. Breaking dormancy in cut seed with 2 chloroethanol (CH_2ClCH_2OH) for greenhouse test work. 180-181.
Birth, G. S. A nondestructive technique for detecting internal discoloration in potatoes. 53-60.
Blake, G. R., D. H. Boelter, E. P. Adams and J. K. Aase. Soil composition and potato growth. 409-413.
Boelter, D. H., (409).
Bonde, Reiner and Fay Hyland. Effects of antibiotic and fungicidal treatments on wound periderm formation, plant emergence, and yields produced by cut seed potatoes. 279-288.
Campbell, J. E., (203).
Chapman, H. W. and C. W. Frutchey. Effects of viruses and other diseases on chip color. 257-259.
Choudhuri, H. C. Spread of rugose mosaic and leaf roll in different varieties of potatoes in the plains of West Bengal. 173-175.
Collin, G. H., (115).
Cook, W. B., (306).
Davies, H. T., (274).
Davis, B. H. Book review; Plant Pathology: The diseased plant. 42.
Dearborn, C. H. Alaska 114, a tough skinned main crop potato. 108-110.
Dearborn, Curtis H., (1).
Easton, G. D., (67).
Erickson, H. T. Potato scab control on organic soils I. Initial response to PCNB. 18-22.
Estes, G. O., (377).
Ferguson, W. E., (268).
Findlen, Herbert. Effect of fertilizer on the chipping quality of freshly harvested and stored Red River Valley potatoes. 85-89.
Frutchey, C. W., (257).
Gatty, Ronald. Book review; Biometrical genetics. 305.
Gausman, H. W., G. O. Estes and R. A. Struchtemeyer. Effect of foliar applications of chloride and sulfate on the specific gravity of white potato tubers. 377-378.
Hansen, Henning P. Tobacco mosaic virus carried in potato tubers. 95-101.
Hansen, Henning P. Simple designations of potato-infecting and other viruses in accordance with the periodical system of plant and animal virus interrelationships. 187-202.
Harrington, W. O., R. L. Olson and Marvel-Dare Nutting. Effects of glycerol-monstearate on reconstituted potato granules. 160-165.
Hawkins, Arthur. Potato planter attachment for distributing weighed quantities of fertilizers for plots. 176-179.
Haynes, F. L., Jr., (260).
Hooker, W. J. Dr. Russell H. Larson, honored. 392-393.

Hooker, W. J. and O. T. Page. Relation of potato tuber growth and skin maturity to infection by common scab, Streptomyces scabies. 414-423.
Hope, G. W., D. C. MacKay and L. R. Townsend. The effect of harvest date and rate of nitrogen fertilization on the maturity, yield and chipping quality of potatoes. 28-33.
Horton, James C., (61).

Yamaguchi, M., D. L. Hughes and H. D. Howard. Effect of color and intensity of fluorescent lights and application of chemicals and waxes on chlorophyll development of White Rose potatoes. 229-236.
Young, D. A., (274) (311).
Young, L. C., H. T. Davies, D. A. Young and J. Munro. Fundy: A new smooth, early maturing variety of potato. 274-277.
Young, L. C., (373).

ERRATA, Volume 37

Front Cover, Vol. 37, No. 6, date line: *read* June 1960 *for* Juue 1960.

Front Cover, Vol. 37, No. 6 contents: *read* Henning P. Hansen *for* Henning P. Hanson.

Page, 187, by-line: *read* Henning P. Hansen *for* Henning P. Hanson.

Pages 233 and 234, Figs. 1 and 2: The description of each figure is correct; the graphs *only* are reversed.

Numbers in parenthesis indicate page numbers of junior author's articles.

SUBJECT INDEX

Abstracts, *see* Potato Association of America
Alaska 114, *see* Potato varieties
American Institute of Biological Sciences Translation Program 247
Argentine seed potatoes, *see* Virus, leaf roll
Arran Banner, *see* Potato varieties.
Antibiotic and fungicidal treatments of cut seed potatoes, effect on wound periderm, plant emergence and yield 279
Aster yellows, *see* Viruses, spindling sprout
Bibliography of farm buildings research, *see* Book reviews
Biometrical Genetics, *see* Book reviews
Blackleg, *see* Chemical, control of
Black spot of potatoes 115
Bonde scholarship fund 83
Book reviews
  Bibliography of farm buildings research, 1945-58 Part II. Buildings for potato storage 278
  Biometrical Genetics 305
  Food for America's future 429
  Plant Pathology: The diseased plant 42
  Plant Physiology: Vol. II: Plants in relation to water and solutes 81
  Results of 1959 fungicide and nematocide tests 216
  Vegetable diseases and their control 217
Breeding technique for Texas 306
Brown spot, *see* Internal brown spot
California, *see* Virus, spindling sprout, also Harvesting
Canada, *see* Viruses, spindle tuber
Chemical(s)
  control of blackleg, dry rot and verticillium wilt by 203
  effect on chlorophyll development, *see* Fluorescent light color
  in food production 38
  treatment, *see* Gibberellic acid
Chipping
  quality, effect of harvest date, nitrogen fertilization on 28
  quality, effect of fertilizer on, of freshly harvested and stored Red River Valley potatoes 85
Chips
  color, effects of viruses and diseases on 257
  color tester 308
  microscopic structure of 45
  protein and other nitrogenous fractions, effect on color of 139
Chlorophyll development, *see* Fluorescent light color
Chloride application, *see* Specific gravity
Common scab, *see* Potato, common scab
Chloroethanol, *see* Dormancy
Compatibility, *see* Gibberellic acid, compatibility
Cut seed potatoes, *see* Antibiotic and fungicidal treatments
  see Dormancy breaking
Dehydration future 77
Diet, *see* Potatoes in reducing
Discoloration, *see* Internal discoloration
Differential host, *see* Viruses M, S, and carnation latent virus
Disinfectants, *see* Ring rot
Disease(s)
  effects on chip color, *see* Chip color
  susceptibility to virus infection, *see* Environment
Dormancy breaking, in cut seed potatoes with 2 chlorethanol for test 180
Dry rot, *see* Chemical control of
Early maturing variety, *see* Potato varieties, Fundy
Environment, effects of, on tuber produuction, potassium absorption and susceptibility to virus in Poland 366
Evaluating ability of potato selections to yield consistently over locations 166

Fertility level, *see* Hollow heart
Fertilizer distributor for plots, *see* Potato planter
Fertilizer effect, *see* Chipping quality
Fluorescent light color and chemical effects on chlorophyll development of White Rose potatoes 229
Fluorescent light, *see* Solanine develoment of white potato
Foliar applications, *see* Specific gravity
Foliar necrosis, *see* Leaf necrosis
Food, *see* Chemicals, also Book reviews
French fry production with infra-red 268
Fundy, *see* Potato varieties
Fungicide and nematocide tests, *see* Book reviews
Genetic variations, *see* Haploids
Gibberellic acid, effect of temperature and time, on treatment with 357
Gibberellic acid, compatibility with seed treating chemicals and their effect on sprouting, plant growth and tuber production 403
Glycerolmonostearate, *see* Granules
Granules
  effect of glycerolmonostrearate on reconstituted 160
  improved by USDA (reprint) 307
Greenhouse testwork, *see* Dormancy
Greening, *see* Solanine development of white potato
Haploids, genetic variations among, of common potatoes 289
Harvest(ing)
  date, *see* Chipping quality
  study in Tulelake, California 34
Hollow heart, effect of fertility level on 338
History of potato virus Y types, *see* Virus Y
Immunity inherited in virus S, *see* Virus S
Infra-red, *see* French fries
Inspection, potato, *see* USDA
Instant Potato Products Association 278
Internal brown spot, effect of planting time on, in Arran Banner in Lebanon 23
Internal discoloration, nondestructive technique for detecting 53
International research projects list 213
Larson, Russel H., honored 392
Leaf necrosis of potatoes, correction with foliar and soil applications of potassium 1
Late blight streak, *see* Stem streaks
Lebanon, *see* Internal brown spot
Manganese toxicity streak, *see* Stem streaks
Maturity, *see* Chipping quality effect of harvest
Microscopic structure of potato chips 45
National Conference on Handling Perishable Agricultural Commodities 44
National Potato Breeding Program, *see* Breeding technique
Nematode tests, *see* Book reviews
Nitrogen fertilization, effect on maturity, yield and chipping quality, *see* Chipping quality
Nitrogenous fractions effect chip color, *see* Chips
Nutrient composition of White Rose during growth and after storage 73
Organic soils, *see* Potato common scab
PCNB, *see* Potato common scab
Phosphorus, influence on growth and physiology of potatoes 127
Picha, Ben, honored 391
Plant emergence, *see* Antibiotic and fungicidal treatments
Plant growth, *see* Gibberellic acid, also Soil compaction
Plant Pathology, *see* Book reviews
Plant Physiology, *see* Book reviews
Planting time, *see* Internal brown spot
Poland, *see* Environment
Potassium, foliar and soil applications, *see* Leaf necrosis
Potassium absorption, *see* Environment
